MEPC.1/Circ.888/Rev.1
25 August 2020

**SUMMARY REPORTS AND ANALYSIS OF MANDATORY REPORTS
UNDER MARPOL FOR THE PERIOD 2013 TO 2018**

1 The Marine Environment Protection Committee (MEPC), at its sixty-seventh session, endorsed a request of the Sub-Committee on Implementation of IMO Instruments (III), at its first session, to issue an annual circular on mandatory reports under MARPOL covering:

- .1 part 1(a): Discharges of 50 tonnes or more;
- .2 part 1(b): Discharges of less than 50 tonnes;
- .3 part 2: Annual enforcement report on alleged discharge violations; and
- .4 part 4: Annual statistic reports for the year,

of the formats for a mandatory reporting system under MARPOL, as set out in MEPC/Circ.318.

2 The current circular is based on mandatory reports received by the Organization in accordance with MEPC.1/Circ.318 for the years 2017 and 2018, submitted by Parties to MARPOL. Based on the information received, an analysis of the 2017 and 2018 reports are provided in annexes 1 and 2.* A summary covering the period 2013 to 2018 is set out at annex 3, updating the information contained in the previous circular, covering the period 2011 to 2016 (MEPC.1/Circ.874/Rev.1). The information contained in the reports is designed to facilitate the exchange of information between Parties and is used by the Organization to assess the effectiveness of the application of MARPOL, as well as for statistical purposes.

3 Parties to MARPOL are requested to submit their annual reports to the Secretariat using the reporting format set out in MEPC/Circ.318. It is reminded that mandatory reports for a particular year have to be submitted by Parties to MARPOL by 31 December of the next calendar year, as specified in MEPC.1/Circ.874/Rev.1. Nil returns are required from Parties for each reporting requirement from the perspective of port, coastal or flag States. Mandatory reports under MARPOL, as well as any queries on the management of the data contained in the annual circular, should be submitted to the Secretariat by post or by email to:

Marine Environment Division
International Maritime Organization

London, SE1 7SR
United Kingdom
Email: info@imo.org

* Reports submitted outside of the reporting year are not included in the analysis enclosed in the present circular.

4 Notwithstanding the above, Parties to MARPOL are urged to provide and/or update their respective contact details in the Port Reception Facilities module of GISIS to ensure notification of port States by flag States reporting on alleged inadequacies in accordance with the procedures set out in the *Consolidated guidance for port reception facilities providers and users* (MEPC.1/Circ.834).

ANNEX 1

ANALYSIS AND EVALUATION OF MANDATORY REPORTS UNDER MARPOL FOR 2017

- 1 The Secretariat received reports for the year 2017 from 33 Parties and 2 Associate Members, representing 35 reports in total.
- 2 Parties are invited to note the following points:
 - .1 part 1(a) of MEPC/Circ.318: Five Parties (Denmark, Greece, Malaysia, Marshall Islands and Singapore) reported a total of six incidents of spillage of 50 tonnes or more. The types of substances discharged were various types of fuel oils;
 - .2 part 1(b) of MEPC/Circ.318: 17 Parties (Bahamas, Denmark, France, Georgia, Islamic Republic of Iran, Israel, Italy, Latvia, Liberia, Malaysia, Netherlands, New Zealand, Norway, South Africa, Turkey, Ukraine and Vanuatu) reported a total of 521 incidents of spillage of less than 50 tonnes in 2017, involving 48 Parties. The types of substances spilled were mostly various hydrocarbon oils, with 354 reports representing 68% of the total incidents. Eleven Parties reported a total of 156 incidents involving Annexes IV and V materials, constituting 30% of overall incidents. Three Parties reported substances other than oil, such as chemicals, paints and vegetable oils, representing about 2% of reported incidents under part 1(b);
 - .3 part 2 of MEPC/Circ.318: Six Parties (Denmark, Japan, Netherlands, South Africa, Spain and Sweden) reported 28 incidents on alleged discharge violations in 2017. The types of substances discharged were various types of fuel oils, bilge water and fish oil;
 - .4 part 4, sections 1 and 2 of MEPC/Circ.318: the total number of ships boarded in 2017 by port State control of the 35 Parties reporting the outcome of inspections was 33,519, while the total number of ships detained in port or denied entry was 183, which represents 0.55% of those boarded;
 - .5 part 4, section 1 of MEPC/Circ.318: of the 33,519 reported boardings, 34 ships had no IOPP Certificate or equivalency, 167 ships had discrepancies in their IOPP Certificate or equivalency; 601 ships had Oil Record Book or equivalency discrepancies, 56 ships had no Oil Record Book or equivalency; 98 ships lacked required pollution prevention equipment; and 1,158 ships had required equipment that was not functioning. In total, 2,114 discrepancies were recorded in 2017. The full summary of discrepancies submitted by port States in fulfilment of the requirements in MEPC/Circ.318 is set out in table 1;

ANNEX 2

ANALYSIS AND EVALUATION OF MANDATORY REPORTS UNDER MARPOL FOR 2018

- 1 The Secretariat received reports for the year 2018 from 29 Parties and 2 Associate Members, representing 31 reports in total.
- 2 Parties are invited to note the following points:
 - .1 part 1(a) of MEPC/Circ.318: Two Parties (Bahamas and Sweden) reported a total of two incidents of spillage of 50 tonnes or more. The type of spillages were bilge water mixed with lubricating oil, as well as low sulphur hybrid oil;
 - .2 part 1(b) of MEPC/Circ.318: 17 Parties (Bahamas, Chile, Egypt, Islamic Republic of Iran, Israel, Kazakhstan, Kuwait, Malaysia, Myanmar, Norway, Panama, Romania, Spain, Sweden, Turkey, Ukraine and Vanuatu) reported a total of 462 incidents of spillage of less than 50 tonnes in 2018, involving 47 Parties. Seventeen Parties reported a total of 225 incidents involving various hydrocarbon oils, whilst eleven Parties reported a total of 227 incidents involving Annexes IV and V materials, with each category representing 49% of overall incidents. The remaining 2% correspond to 10 reports submitted by three Parties for incidents involving substances other than oil, such as chemicals, paints and vegetable oils;
 - .3 part 2 of MEPC/Circ.318: Five Parties and Associate Members (Japan, Netherlands, Spain, Sweden as well as Hong Kong, China) reported 28 incidents on alleged discharge violations in 2018. The types of substances discharged were various types of hydrocarbon oils and oily waste substances, as well as vegetable oils and similar products;
 - .4 part 4, sections 1 and 2 of MEPC/Circ.318: the total number of ships boarded in 2018 by port State control of the 31 Parties and Associate Members reporting the outcome of inspections was 34,290, while the total number of ships detained in port or denied entry was 115, which represents 0.34% of those boarded;
 - .5 part 4, section 1 of MEPC/Circ.318: of the 34,290 reported boardings, 33 ships had no IOPP Certificate or equivalency, 171 ships had discrepancies in their IOPP Certificate or equivalency; 421 ships had Oil Record Book or equivalency discrepancies, 39 ships had no Oil Record Book or equivalency; 97 ships lacked required pollution prevention equipment and 851 ships had required equipment that was not functioning. In total, 1,612 discrepancies were recorded in 2018. The full summary of discrepancies submitted by port States in fulfilment of the requirements in MEPC/Circ.318 is set out in table 1;

Compliance with the provisions of MEPC/Circ.318

2 Compliance reporting in accordance with MEPC/Circ.318 continues to be relatively low. For 2017 and 2018, respectively, 35 and 31 Parties and Associate Members submitted their reports by the deadline, with 3 Parties submitting their reports after the deadline.

3 Whilst Grenada and the Republic of Iraq acceded to MARPOL Annex I/II in 2018, this increase did not affect the 2017 nor 2018 reporting period, and the total number of Parties required to report during the 2017 and 2018 biennium remained at 155. Hence, compliance reporting statistics are adjusted based only on submitted reports, including data from previous reporting years.

4 For 2017 and 2018, respectively, the compliance reporting rate equals 21.3% and 18.1%. Figure 1 illustrates the reporting trend on a yearly basis between 2013 to 2018.
