PROHIBITION OF ANCHORING IN THE STRAITS OF MALACCA AND SINGAPORE

1 This circular supersedes Port Marine Circular No. 5 of 2001.

2 Vessels have been observed anchoring off the Traffic Separation Scheme (TSS) and Precautionary Areas in the Straits of Malacca and Singapore. These vessels are not only obstructing port approaches and traffic flow but also pose a risk to the safety of navigation and marine environment.

3 Reference is made to the International Maritime Organization Circular, SN.1/Circ.282, which vessels are advised not to anchor in all areas in the Straits of Malacca and Singapore between the landward limit of the TSS or precautionary areas, and adjacent port limits. Vessels are to anchor in the appropriate anchorages designated by the three littoral States.

4 Vessels found to be indiscriminately anchored and in contravention of Rule 10 (g) of the International Regulations for Preventing Collisions at Sea, 1972 (COLREGs) in the Singapore Strait will be reported to their Flag State. Where submarine cable damage occurs, the Maritime and Port Authority of Singapore will promptly share information with the cable owner(s) and other interested parties to facilitate legal proceedings to recover compensation from the owners and masters of vessels responsible for the damage.

5 The International Maritime Organization Circular, SN.1/Circ.282 (as attached) provides further information on the prohibition of anchoring in the Straits of Malacca and Singapore.
SAFETY OF NAVIGATION

INFORMATION CONCERNING ANCHORING IN THE
TRAFFIC SEPARATION SCHEME IN THE STRAITS OF
MALACCA AND SINGAPORE

1 At the request of the Governments of Indonesia, Malaysia and Singapore, the information contained in the annex, concerning anchoring in the traffic separation scheme in the Straits of Malacca and Singapore, is brought to the attention of Member Governments.
ANNEX

PROHIBITION OF ANCHORING IN
THE STRAIT OF MALACCA AND SINGAPORE

There has been a proliferation of vessels anchoring within the Traffic Separation Scheme (TSS) and Precautionary Areas in the Straits of Malacca and Singapore as well as between the landward limits of the TSS and approaches to the ports. These vessels pose a risk to the safety of navigation by obstructing port approaches and traffic flow.

There have been several reported cases of collision incidents involving vessels as well as reports on submarine cable damage caused by such indiscriminate anchoring of vessels at non-designated anchorages along the Straits of Malacca and Singapore.

Mariners are therefore reminded not to anchor in all areas in the TSS of the Straits of Malacca and Singapore (Rule 10 (g) of the COLREGs also refers); as well as between the landward limits of the TSS and approaches to the ports. Vessels entering any port in any of the littoral States are to anchor in the anchorages designated by the respective littoral States only.

Mariners are hereby given notice that the Maritime Authorities of Indonesia, Malaysia, and Singapore will closely monitor the identities and locations of vessels that are anchoring indiscriminately. The relevant authority will take appropriate action including reporting to the flag State of the vessel.

Where submarine cable damage occurs, the relevant authority will promptly share information with the cable owner(s) and other interested parties to facilitate legal proceedings to recover compensation from the owners and masters of vessels responsible for the damage.

In exceptional circumstances such as an emergency where anchoring cannot be avoided, mariners are advised to carefully ascertain the location of submarine cables from nautical charts and publications to avoid anchoring over these cables.

Dated: 6 November 2009

Issued by: Directorate General of Sea Transportation, Indonesia
            Marine Department of Malaysia
            Maritime and Port Authority of Singapore
